II.A. Uses of Education Stabilization funds by LEAs

Provide a concise narrative of how LEAs in your state have generally used Education Stabilization funds, and the impact that the funds had on elementary and secondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

SFSF Education Funds were used for the support of public elementary and secondary education and, as applicable, early childhood education programs and services. SFSF Education Funds were generally used for creating and retaining jobs, as well as making progress in the four reform areas outlined in SFSF. CT has made considerable progress on our State plans under the 4 reform areas (Achieving Equity in Teacher Distribution; Improving Collection and Use of Data; Standards and Assessments; and Supporting Struggling Schools) outlined in our SFSF Phase 2 application. Connecticut is on track to completing all plans as indicated, by September, 2011. Specifically, The \$1,882,619.83 in the "other" category represents LEAs activities other than infrastructure or payroll. These "other" funds were used by the LEAs for the following: software; science and language arts instructional materials; text books; online formative assessment software; computer monitors and notebooks; networking support; professional development, and student transportation.

Please update for the new timeframe:

IV. Tax Increases Averted

Estimate the degree to which State tax increases were averted because of the availability of SFSF funds.

Entry from previous timeframe:

The state was able to maintain local education funding levels due to the availability of SFSF funds. Given the lack of political consensus on spending reductions and/or increasing taxes during the last legislative session, in the absence of SFSF funds Connecticut policy makers would likely have increased the amount of borrowing that was adopted as a deficit financing mechanism.

Please update for the new timeframe:

V. Jobs Saved or Created

In its quarterly reports submitted under section 1512 of ARRA, each State provided data on, among other things, the number of jobs estimated to have been saved or created as a result of SFSF support. The Department will use the information that has been reported to determine the number of jobs that have been saved or created. For the purposes of the Initial Annual Report, the State is not required to provide any additional information on the number of jobs estimated to have been saved or created.

VI. Progress in Advancing Education Reform

A. Reducing inequities in the distribution of highly qualified teachers:

Describe the steps that the State has taken, from October 1, 2010 through September 30, 2011, to reduce inequities in the distribution of highly qualified teachers.

Entry from previous timeframe:

As noted in CT's SFSF Phase 2 application, CT had developed and will distribute an electronic survey to every district in the state that will report on the systems used to evaluate the performance of teachers. As of September 30, 2010, the survey was developed. Connecticut is on track to complete this plan as indicated in CT's SFSF Phase 2 application. Also, CT has completed and posted CT's Teacher Equity Plan at http://www.sde.ct.gov/sde/lib/sde/pdf/arra/CT_Equity_Plan.pdf. The report reflects steps that CT is taking to ensure students from low-income families and minority students are not taught at higher rates than other students by inexperienced, unqualified teachers. In addition, in the 2010-1011 legislative session, CT passed landmark legislation for education reform. The Performance Evaluation Advisory Council was established to provide guidance to the State Board of Education on the development of a the formal design of a new system for supervising, and evaluating principals and teachers. Pursuant to Connecticut General Statutes, "On or before July 1, 2013, the State Board of Education shall adopt, in consultation with the Performance Evaluation Advisory Council established pursuant to section 5 of this act, guidelines for a model teacher evaluation program. Such guidelines shall provide guidance on the use of multiple indicators of student academic growth in teacher evaluations. Such guidelines shall include, but not be limited to: (1) Methods for assessing student academic growth; (2) a consideration of control factors tracked by the state-wide public school information system, pursuant to subsection (c) of section 10-10a, as amended by this act, that may influence teacher performance ratings, including, but not limited to, student characteristics, student attendance and student mobility; and (3) minimum requirements for teacher evaluation instruments and procedures."

Please update for the new timeframe:

As noted in Connecticut's SFSF Phase 2 application, CT has developed and distributed an electronic survey to every district in the state and they reported on the systems used to evaluate the performance of teachers. From October 1, 2010 through September 30, 2011, the survey was developed and results were collected and preliminarily reviewed. Also, CT has completed and posted CT's Teacher Equity Plan for 2009-2010 at http://www.sde.ct.gov/sde/lib/sde/pdf/arra/CT_Equity_Plan.pdf. The report reflects steps that CT is taking to ensure students from low-income families and minority students are not taught at higher rates than other students by inexperienced, unqualified teachers. CT is currently working to update this plan for 2010-2011. In addition, in the 2011 legislative session, CT passed legislation that established the Performance Evaluation Advisory Council to provide guidance to the State Board of Education on the development of a formal design of a new system for supervising, and evaluating principals and teachers. Pursuant to Section 10-155b of the Connecticut General Statutes, "on or before July 1, 2012, the State Board of Education shall adopt, in consultation with the Performance Evaluation Advisory Council established pursuant to section 10-151d, guidelines for a model teacher evaluation program. Such guidelines shall provide guidance on the use of multiple indicators of student academic growth in teacher evaluations. Such guidelines shall include, but not be limited to: (1) Methods for assessing student academic growth; (2) a consideration of control factors tracked by the state-wide public school information system, pursuant to subsection (c) of section 10-10a, that may influence teacher performance ratings, including, but not limited to, student characteristics, student attendance and student mobility; and (3) minimum requirements for teacher evaluation instruments and procedures." Once these guidelines are approved, they will be posted on the Connect State Department of Education's website at www.sde.ct.gov.
